Step by Step Recipes

The application is designed mainly for young people with smartphone or tablet, who are not necessarily good at cooking, but they like trying new recipes or only never can remember old recipes from mom.

Don't use longer the lengthy, unreadable descriptions. Our recipes lead you step by step from preparing ingredients to final meals. Our recipes are highly optimized for portable devices using during cooking. A big picture and a short well readable description for each step, no zoom is needed.

You can use this app for memorize your recipes, that you use often, but you always have a problem to remember all needed ingredients and steps.

You can share your recipe with others and you can try a recipe from somebody else.

Thanks to rating, you see, which recipe is the best and which you should not use, if you are preparing a dinner for your girlfriend.
